C. P. R. Improves Passenger Service Going Westward

Bassano is Made a Regular Stopping Point for No. 3 Train

A telegram just received from the Canadian Pacific Railway Company, Calgary, conveys the information that Bassano has been made a regular stopping point for the morning west bound train, which is due here at 5:05 a.m. The train will be stopped here every morning to take on and discharge passengers.

H. H. Beeber, Bassano station agent, received the wire from Calgary this morning (Thursday). The new order, it was said, would take effect at once.

When the C. P. R. speeded up their passenger train service between Montreal and Vancouver, it brought about a big change in the west bound passenger trains. The line of No. 3 train, which formerly was due in Bassano at 1:05 noon, was changed to 5:05 a.m. Bassano was not scheduled as a stopping point for this train, and although it stopped here for coal and water passengers were not supposed to board it. Passengers did, however, get on this train. This condition of affairs caused the public confusion, inconvenience, and delay, but the trouble is now remedied by the new order from Calgary.

Readjustment of passenger service on this train has followed protests from the Bassano Board of Trade and from individuals. Word of the change is received in Bassano with thanks and gratification.

Greta Garbo Has Glamorous Role

Greta Garbo, who is undoubtedly one of the most fascinating personalities ever to appear on the silver screen, has a part that should delight her fan following and her thousands of admirers in the picture which is coming to Bassano Friday and Saturday this week, Oct. 11 and 12.

It is an original story written for Miss Garbo by John Cotton. The author selected the island of Java, off the Malay peninsula, as the locale for his plot, which is replete with action, thrills, love, suspense, and picturesque glamour.

Coming to Java as the young bride of an American business man, Miss Garbo attracts the raring eye of Prince de Gance, who thereupon tries to force her to marry him.

Developments follow rapidly and furiously. The deception is discovered, and John Sterling (Lew Stone) plans a frightful revenge as the toll for the younger man's interference with his wife. Sterling empties the charge from Joe's gun when the latter goes right hunting, then, at the last moment, when the prince is faced by a hungry animal, Sterling has a moment of conscience and kills the beast. Then his wife is forced to choose between the two men.

"Children of the Ritz" is showing Monday and Tuesday next week, Oct. 14 and 15. Youth's own revelation of the daring doings of the younger generation. A 21 year old youth won \$10,000 for this story.

William Boyd will appear in a big sensational comedy drama, "Power," Wednesday and Thursday next week, Oct. 16 and 17. They worked on an enormous water dam by day and on a boat with pretty dance by night—until you'll be delighted with this amusing comedy.

Jack Holt will star in a new Zane Grey picture, "Avalanche," coming Friday and Saturday next week, Oct. 18 and 19.

Silent Policemen Are Back Again

Town Council Intend to Re-elect Indefinite Traffic Police

The silent policemen, which were recently removed from the streets of Bassano, are back on the job again. There are three of these silent, unobtrusive, and busy men at the intersection of the main office, Pleasant's corner, and the Hunter Hotel corner. All motorists have not been observing the traffic regulations. Some have been noticed driving and parking on the wrong side of the street, turning on the left side of a corner, and turning on the street between intersections. Disregard of the traffic rules creates a nuisance and a danger, and the town council has decided to re-elect them.

The re-election of these silent policemen is a correct move. No accident occurred following the removal of the policemen, but the council felt their return would be advisable.

Countess News

COUNTRESS, Oct. 10-Mr. and Mrs. Hays and Mrs. Dale Ferguson spent a few days in Calgary last week.

Mrs. McKenna and Mrs. M. A. Anderson spent Thursday afternoon visiting Mrs. Smith of Latham.

Miss Bernice and Doris Thompson were visitors at the Cote home Sunday.

Maurice Cote went to Calgary Monday on business.

Mildred Ferguson is home after spending a couple of weeks in Glenora.

Mr. and Mrs. Parrott and family, of Saskatoon, returned on Sunday on a visit with Mrs. Mack Ferguson.

Mrs. and Mrs. E. R. Heldt and children were visitors at the Thompson home Sunday.

Threshing is almost finished in this district.

Gem News

EM, October 9—On federal member R. J. Garland, to address the farmers of Gem on October 10th. The speaker will be over by the time it is to be hoped a crowded audience will attend the Gem school to hear Mr. Garland.

Mrs. J. L. Garfield had the pleasure of a visit from Mrs. B. Small, and also Mrs. Narum.

Geddy Perrott plan to leave for Edmonton after the busy season is over. He intends to visit in Nebraska for the winter.

Mr. Dodds of the White Farm, in Calgary on a business trip.

Very little fishing remains to be done in the Colony and surrounding districts.

John Leisner, who has been in the Peace River district for several months, has been enjoying a holiday in the Colony with relatives and friends.

Several carloads of coal will be shipped into the Colony during the next few days.

On Sunday afternoon many of our youth with friends from surrounding districts, celebrated a harvest thanksgiving service in the Gem school.

Runners, and on good authority, say that we are to have a real, genuine picture show as soon as the necessary equipment and machinery can be installed in the Gem school. This will be a pleasant news to all members of the community. Details in next week's notes.

M. A. Parrott was a week-end visitor at the home of Mr. and Mrs. McKelley.

Mr. and Mrs. VanVergien were in the Colony on Tuesday afternoon visiting old friends.

M. Atkins, accompanied by his nephew principal, L. O. Burger and C. Douglas, made a business trip to Calgary on Saturday last.

Mr. and Mrs. Ralph Robson, with Mr. and Mrs. Wm. Pollock, were week-end visitors to Calgary.

Roy Robson, of Huxar, was in the Colony on Tuesday.

Mr. Gifford was a visitor to the Colony Friday afternoon, paying a social call on Mrs. B. Small.

Mrs. Miller, with Miss Mildred, of Millerville, who have been enjoying a visit with Mrs. Leslie Douglas, returned to their home last week-end.

Bert Keeling, who was operated on in the Bassano Hospital a few days ago, is progressing so favorably as to expect to return home in the very near future.

Rev. Father Fitzpatrick, R.C. priest, is expected to pay a visit to the Colony Thursday and Friday.

GOOD CROWD ATTENDS ANGLICAN ENTERTAINMENT

The whist drive and dance put on by the Anglican vestry last Friday evening, Oct. 4th, attracted a good sized crowd, and a very enjoyable evening was spent with cards and dancing. Mrs. M. Lee won lady's prize on the whist.

Mr. and Mrs. F. McDonald and Dr. A. Connolly won gentlemen's first. Mr. Connolly won the draw.

Supper followed the cards, and the balance of the evening was devoted to dancing.

There will be a meeting of the ratepayers on Tuesday night to discuss the advisability of having a third teacher in the village school.

There will be services in the United Church next Sunday at 11:00 a.m. by the pastor, Rev. Turner.

Mr. Woodward has left for the east for his month's holiday owing to his illness.

Miss Charlotte Spier, of Crowfoot, spent the week-end at her home here.

Mr. and Mrs. Keller spent a few days here at the home of Mr. and Mrs. Lightfoot.

A big fire at the W. B. Smith farm destroyed a large barn, seven head of horses, and a grand total of 700 bushels of oats. It also burned some hog sheds.

Mrs. Bob Dunsmore, of Brooks, is staying at the Dunsmore home while Mrs. G. A. Dunsmore is in Calgary.

Quite a number attended the funeral of Mrs. Leo Fraser in Bassano on Sunday, Oct. 9th.

MALLOWSIDE MAJOURNAIRE

A jalloween masquerade dance is to be held in the Mallois Community hall on Wednesday night.

Arrangements have been made for the Women's Institute to provide the lunch, and there will be a special orchestra for the dancing.

TOWN COUNCIL HOLD MEETING

Monday

The Bassano town council held its regular meeting in the Town Hall last Monday evening, October 7.

The meeting was devoted to anything of special importance, but a considerable amount of routine business was put through.

Kinsler's Report

Town Engineer, Frank Mead, turned in his report for the month of September. He reported five leaks had been repaired in the water mains; one grave was dug; one occurred. The standpipes of the waterworks system, he reported, had been scraped and painted, tested and put in first class shape.

Street Lights Out Trouble

The secretary was instructed to write the Calgary Power Company regarding the service on the town street lights. These lights, which are maintained and kept in order by the company, have been giving considerable trouble a number of them going out frequently, and sometimes not being repaired for several days or a week. The council wants better service on these lights.

Accounts

The following accounts were passed for payment:

H. D. Bacon \$42.30

Bassano School \$100.00

A. Buckley 121.95

Robt. McLean 52.00

DUCHESNE, Oct. 10-Mr. and Mrs. Jim Salter of Nanton, motored down for a day's shooting and visit with friends.

Mr. and Mrs. Dave Bell motored down from Brant on Saturday night and spent Sunday calling on old friends and neighbors.

Mrs. Jack Anderson went to Calgary Saturday to spend a week.

Mrs. G. A. Dunsmore, Lyle, and Christie went to Calgary Tuesday to spend a few days visiting relatives.

Mr. and Mrs. A. M. Anderson, of the sudden death of L. Bureau, which occurred in the Bassano Hospital Tuesday evening, Oct. 7.

Dr. Gershaw, of Medicine Hat, addressed a political meeting last night in the U. F. A. Hall.

There will be a meeting of the ratepayers on Tuesday night to discuss the advisability of having a third teacher in the village school.

There will be services in the United Church next Sunday at 11:00 a.m. by the pastor, Rev. Turner.

Mr. Woodward has left for the east for his month's holiday owing to his illness.

Miss Charlotte Spier, of Crowfoot, spent the week-end at her home here.

Mr. and Mrs. Keller spent a few days here at the home of Mr. and Mrs. Lightfoot.

A big fire at the W. B. Smith farm destroyed a large barn, seven head of horses, and a grand total of 700 bushels of oats. It also burned some hog sheds.

Hussar News

HUSSAR, Oct. 9-Mrs. J. Wheatley, of Standard, was a guest of Mrs. B. S. Plimmer in Bassano the first of this month.

Moore, Williams and Villeneuve will build the school house for the Shallow Water school district.

J. Allen was over from Bassano reading meters in Hussar on Thursday.

There was a most disagreeable storm storm last Thursday afternoon, and all the houses were were hoping that it would rain.

Chester Thew left last Saturday for Deer Park, Washington, where he will continue his school work, and resume lessons on his behalf.

Mr. and Mrs. Roy Warburton motored over to Makepeace on Friday morning.

Miss Frances Larson was over from Makepeace to spend the week-end with Mrs. J. B. Harsh.

Mrs. R. P. Deitz was so unfortunate as to sprain her left arm on Thursday evening.

Mrs. and Mrs. Tom Lawson left on Thursday for a motor trip through southern Alberta.

Ed Klop and Ed Ellington left on Friday morning for Minnetonka.

Mr. and Mrs. Sam Ellison are disposing of some of their belongings and are preparing to move the first of the week to Trochu, where Mr. Ellison has bought a dry lake and will operate same with the help of his brother, Joe, who will accompany him.

Mrs. F. H. Reeves went to Calgary on Saturday.

Miss Fletcher spent the week-end in Calgary.

Frank Thew has a new Ford sedan. Manville Anderson and Graham Montgomery motored to Bassano on Friday evening, where Manville played in the orchestra for the dance.

Little Miss Marlene Coffey was so unfortunate as to scald her right foot badly on Friday morning.

Mr. and Mrs. Joe Kvanvik motored over to Calgary on Thursday.

Mr. H. B. Gierling was in Calgary on Thursday, returning on Friday.

Hans Burckhardt and Jack Humphries motored to Calgary on Sunday.

FRANK MEAD IS THE POSSESSOR OF AN INTERESTING OLD BOOK

"The Regent or Royal Tablet of Monarchs 1625," is the title of an old book in the possession of Frank Mead, town engineer. The book, which was given Mr. Mead by his grandmother, is a small hand book bound in red leather, and contains about 150 pages. It was published in London, and contains a store of information including the names of the monarchs of the House of Commons, the list of peers, postal information, etc. The book also contains a number of printed pictures of many of the monarchs, and the pictures are printed by the old wood cut method, and are very fine specimens of a vanished art.

ROSEMARY News

ROSEMARY, Oct. 10-Ray Wilfley attended the dance in Patricia last Friday night.

Mrs. Paye Robinson spent the week-end in Calgary.

Mr. and Mrs. Gladie and baby (Cora) spent Sunday at the Eastman home.

A Gallup returned from Charlo, Montana, last Friday night. He is busy putting up buildings on his place.

His family is expected to arrive in the near future.

Mrs. Park is the proud possessor of a new motor cycle.

Mr. and Mrs. Wm. Tauffert and son Douglas, also Miss Loraine Eastman, spent a few days in Calgary this week.

Mr. and Mrs. J. Hall and family and Mr. and Mrs. Frank Adams and family spent Sunday at the Simmons home.

Mrs. W. J. Park enjoyed a visit with her father last week.

Mr. and Mrs. Paraworth, of Canby, made a call, though the community this week, in gathering for missions.

Mr. Ferguson's sale, north of Duchesne, was attended by a large number of the community on Saturday evening. Dancing, songs, and music were enjoyed, and just before supper Miss Giberson, who is leaving to make her home in Winnipeg, was showered with a variety of lovely handkerchiefs. She thanked everyone very prettily, and then all sat down to a midnight lunch. Shortly after, the guests left, wishing Miss Giberson a happy future in her new home.

The Ladies of the Hussar Institute and Ladies' Aid entertained the Hussar Institute and Ladies' Aid on Saturday afternoon at a charming card party and tea. What music was played, and what cards were played, and the usual card (continued on back page)

Board of T. Pays Another \$500.00 For Irrigation

Town Hester Announced to be In First Class Working Order

The sum of \$500.00 was voted by the (Bassano) Board of Trade at its last meeting, Wednesday, Oct. 9, to be turned over to the Town of Bassano to help pay of the debt on the town irrigation system. The Board still owes approximately \$700.00 on the irrigation scheme. The Board has more than \$1000.00 cash on hand, and after paying the \$500.00 for the irrigation, ample funds will be left for carrying on the regular work of the Board.

The meeting was held in the Hunter Hotel dining room, with an attendance of twenty.

Scales in Good Order

Chas. Hagger, in reporting for the public affairs committee, said that the weigh scales had been tested and found to weigh accurately. A team of horses had been weighed on the scales, and also on two other sets of scales in town, and all three came the weight was practically the same. The government scale inspector had also inspected the scales and pronounced them in good order.

Mr. Hagger also mentioned that a number of road signs had been put up, and was suggested that a directional sign be placed at the turn east of Countess where the Gem road goes north. Tourists who do not know the road sometimes get confused at this place.

Tree Watered

A. T. Connolly, reporting for the auto park and tree-planting committee, said that the town trees had received the water they needed.

Need Light at Stockyards

The opinion was expressed that an electric light was needed at the stock yards for farmers and ranchers, who may find it necessary to come to the stock yards at night. It was suggested that the C. P. R. be asked to place a light at this place. The matter was turned over to the public affairs committee to see what could be done about it.

New member Welcomed

L. Y. Birnie, new proprietor of the Hunter Hotel where the Board meetings are held, was given a welcome by the members. Mr. Birnie thanked the members and spoke a few words of praise for the town and the energy and initiative of the Board of Trade.

Local 'Plane Will Be Tested Next Week

Silver Winged Monoplane is Now Almost Completed

The Scott-Sambrook airplane will be given its trial flight next week, Tuesday being named by W. E. Sambrook, as the day of the first test. Mr. Sambrook said he could not tell for certain, but he expected that by Tuesday everything would be ready for the test.

The 'plane is now almost finished. The only remaining work on the ship is to install the instruments board, to finish the doors and windows on the cabin. The wings will likely be given another coat of varnish. The motor was mounted last week, and although the fliers have not had it running yet, it was thoroughly tested before leaving the factory.

Two of the best known air pilots in Calgary, J. Palmer and Fred McColl, have expressed their desire to take up the flying with the plane on its trial flight. If neither of these men can come for the trial flight, Mr. Sambrook intends to make the test himself.

The Ladies of the Hussar Institute and Ladies' Aid entertained the Hussar Institute and Ladies' Aid on Saturday afternoon at a charming card party and tea. What music was played, and what cards were played, and the usual card (continued on back page)

GEM THEATRE

THE REINDER INDUSTRY
Vancouver—Canada's reinder industry takes a big forward step this year with the trek of 3,000 northern animals from Alaska into the Dominion. In November this herd, obtained by Canada from the United States herds in Alaska, will begin a trek which will take 15 months and will land the animals in 1934, on the Arctic coast, east of the Mackenzie River. A. E. Payroll, biologist for the Northwest Territories Branch, Department of the Interior, at Ottawa, is on his way to Nome, where he will go by ship or airplane to Kotzebue for the start of the movement.

RED CROSS ON THE AIR

Through the courtesy of the Education Journal, the Red Cross Society is again offering its fall and winter program, entitled "The Friendly House" on Tuesday afternoon at 2:30 o'clock, over C. J. C. A. The program is under the direction of Mrs. M. H. Conquest, "The Radio Lady," who is one of the best known broadcasters in Alberta, having for the past eight years conducted programs over C. F. A. C. and C. J. C. A. The program consists of one hour on health education and entertainment. It covers a wide field in the subject matter, the presentation of which is attractive and interesting. The romance of the history of medicine, the wonderful story of the fight against ignorance and superstition, and the marvelous modern achievements in sanitation and hygiene, will provide many fine features of this program.

Concerning the naval parity, there appears to be too much disparity of view.

In writing to The Calgary, Alberta somebody says: "Can anyone explain just why automobiles will persist in trying to beat locomotives at railway crossings?" Probably for the same reason that a car will stop at the way of an approaching automobile.

A week-end in a woodland camp brought about perfect, sunny and peaceful understanding between MacDonald and Hoover. Dame Nature has a wonderful way with her. Perhaps the great world war would have been averted if King George could have taken Kaiser Bill on a fishing trip.

Now that the world baseball series is under way Macdonald and Hoover are out of the limelight while the American citizen cheers his baseball heroes, raises the umpire, and throws his hat into the air. Hoover is president, but just now baseball is king.

The New York Federation of Women's Clubs estimates a man and a maid should have \$1,000 to set up a home. But first of all, it requires that much to buy the car.

HELPING IMMIGRANTS
A good work is being performed by the British Welcome and Welfare League, an organization which assists British immigrants who come to Canada to make their home. The league operates a 36 room hotel in Toronto, where the newcomers in a strange land are welcomed and made comfortable, given care, protection, and good advice. This benevolent welcome warms the heart of the new Canadian, and the assistance he gets helps him to quickly adjust himself to his new life.

The British Welcome and Welfare League carries on its good work in a quiet, unostentatious manner, helping the stranger along, giving him a lift at a time when it is most welcome. It is not enough merely to bring immigrants to Canada and dump them down in the country. The immigrant should be welcomed, treated in a friendly manner, made to feel at home. That is what the British Welcome and Welfare League is doing.

NEED OF BETTER STREET LIGHT SERVICE
Some of the town street lights burn out frequently, and often several days pass before they are replaced. These lights are maintained by the Calgary Power Company, and are under the care of Jack Allen, the company's representative in Bassano. It frequently happens that when a street lamp burns out Mr. Allen is out of town, as his work takes him to Arrowwood, Camy, Strathmore, Hinton, and other towns. It is sometimes several days or a week before Mr. Allen hears of the trouble and is able to put the light back in service again. In the meantime the light is out and the street is in darkness, causing inconvenience and danger to the townspeople.

The Calgary Power Company should place the maintenance of the street lights under the care of a capable man who is always right here in town so that in case of trouble he can be notified and repair the damage without delay. As it is now the town is paying for street lighting that is sometimes far below par.

WHAT GRADES HIGH
Winnipeg—in a summary of the 1932 wheat situation the Manitoba Free Press points out that wheat is grading so high this year as to offset to a considerable degree, the shortage in the size of the crop. It says: "Western Canadian wheat has never graded so high in many years. The protein content of samples so far checked grade the highest that this west has known since the practice of testing for protein was inaugurated." This authority goes on to show that up to September 24th this year there were received 101 cars of No. 1 hard wheat compared with none at all at the same date last year, while No. 1 and No. 2 Northern made up 87 per cent of the total cars checked.

From the Rubelstaf of Omar Khayyam
"How sweet is mortal sorrows!"—
think some;
Others—"How blest the paradise to come!"
Ah, take the cash in hand and waive the rest;
Oh, the brave music of a distant drum!

Look to the rose that blows about us
—"Lo,
Laughing," she says, "into the world I blow;
At once the silken tassel of my purse
Tear, and its treasure on the garden throw."
The worldly hope men set their hearts upon
Turns ashes—or it prospers; and anon,
Like snow upon the desert's dusty face
Lighting a little hour or two—
is gone.
And those who husbanded the golden grain,
And those who flung it to the winds like rain,
Alike to no such aureate earth are turned
As, buried once, men want dug up again.

Think, in this better'd caravaner!
Whose doorways are alternate light and day,
How sultan after sultan with his pomp
Abode his hour or two, and went his way.
They say the lion and the lizard keep
The courts where Jamshyd gloried and drank deep;
And Bahram, that great hunter—the wild as
Stamps o'er his head, and he is fast asleep.

"You are always gay,"
Said a friend to me.
Said I: "It's the only thing to be.
I've found that a cheerful philosophy
Helps me along amazingly.
It you punched my nose
I would not retile;
While the gorge gushed I would sweetly smile.
Of course, I'd punch back.
But only to see
What kind of brand Your philosophy be."

—H. Ledington.

WINNIPEG TO CALGARY AIR MAIL SERVICE
Moose Jaw—Work on the lighting of the air mail route between Winnipeg and Calgary, which will pass through the Moose Jaw Air Port, leaving and picking up the local mail, is now in progress, according to officials of the postal service. The air mail service will commence at an early date in November, when it is expected by officials that the work on the lighting system will be complete.

Don't buy any car until you have driven Chevrolet
IT'S all very well to listen to So-and-so's opinion of car values, but after all, the person whose opinion counts most is YOURSELF. It's all very well to sit back and wonder how Chevrolet can produce a really high-class Six, but put a high-compression, valve-in-head engine in it... employ Fisher Body genius to create and build a series of magnificent bodies for it... equip it in the most detailed and up-to-the-minute fashion... and sell it at the price of a four.
The unmatched resources of General Motors, backing up Chevrolet's own tremendous facilities, explain all that, of course. But how much more satisfying to test it all out for yourself... behind the wheel of the new Chevrolet Six. That is why we urge you... no matter how many nice things you have heard or read about Chevrolet... to DRIVE CHEVROLET before you buy any car.
If you don't tell yourself a Chevrolet, nobody else is going to do it. Please don't feel you are obligating yourself in any way. It's a pleasure for us to place a Chevrolet Six at your disposal.

short cuts for SAVINGS

YOUNG MAN! Your life assurance premium includes a certain amount invested under the most advantageous conditions.

\$100 deposited in a Savings Account is at the end of One Year worth—\$103.
\$100 deposited on account of life assurance creates an estate in One Day of \$5,000.

A young man can, for an expenditure of approximately \$200 yearly, buy life assurance of \$10,000.

To accumulate the same money by ordinary savings methods, he would have to deposit \$200 each year for 32 years. (3% compound interest.)

During that period 20 out of every 100 men of his age have died; failures and reverses have ruined many more.

The current Sun Life dividend scale produces remarkable results, and will give you greater returns than you anticipate. See the local Sun Life representative.

STUBBLE TREATMENT

FOR OATS

(Experimental Farm Note)
Whether to fall-plow, spring-plow, or cultivate wheat stubble before seeding as a preparation for oats is a question often uppermost in the minds of grain growers. Many growers have voiced out this problem in their own satisfaction, and are convinced that a certain method best suits their particular conditions.

At the Dominion Experimental Station, Scott, these methods have been tested for fourteen years. The best yield has been obtained following fall plowing. These bushels more have been obtained by spring cultivation, and the highest average yield of 55 bushels per acre has been obtained by spring plowing. Invariably the spring plowed land gives a much cleaner crop and this fact has undoubtedly influenced the yield. Plowing was four inches deep in both cases. The soil was a silty clay loam. The most common weeds were pigweed and wild buckwheat. It should also be remembered that these conditions are associated with an average precipitation of approximately 13.55 inches.

These results do not necessarily apply to conditions which materially differ from those already stated.

Where the soil and climate differs it would not be wise to draw definite conclusions from the above, and it would be preferable to consult your nearest experimental farm.

An Irish laborer overheard, and in his hurry to make up for lost time, put on his trousers wrong side foremost. It happened that there was an explosion at the works that day. When Tim was removed from the debris he was asked if he was hurt. "No," replied Tim, looking at his trousers, "but sure an Ol'Ve got a fearful twist!"

Genta: When I began taking your wonderful elixir I was so weak I could not arise unassisted from my bed. Yesterday, after finishing the second bottle, I licked my mother-in-law down two flights of stairs. Send me three more bottles at once.

"So you propose to take my daughter from me without any warning?"
"Not at all. If there is anything concerning her you want to warn me about, I'm willing to listen."

The Bride: "You never seem to take any interest in anything I do."
The Bridegroom: "Don't be unreasonable, my dear; I couldn't sleep last night for wondering what you put in that last cake you made."

ANNOUNCING 1930 NASH "400"

WORTHY SUCCESSOR TO A GREAT SUCCESS

TWIN-IGNITION EIGHT
TWIN-IGNITION SIX
SINGLE SIX

Introducing a completely new group of motor cars with the richest new body designs that ever delighted the eyes of the motoring world, and with impressive new engineering of the most advanced character. ¶ When you view the 1930 Nash "400" models on display you will instantly recognize the fact that Nash today is decisively ahead of the entire industry.

ROY SMITH

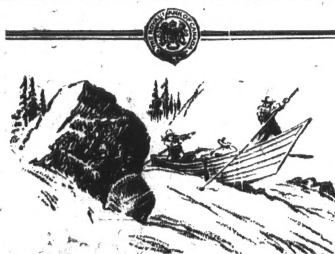

BASSANO :: CLUNY :: GLEICHEN

Those who have had experience with a certain type of "good Samaritan" will appreciate this colored preacher's version of the well-known parable: "There was a traveller on a lonely road, robbed an' left wounded an' helpless by de roadside. As he laid dere, various passons passed him, but none ob dem offered him any assistance. By an' by, howsomever, a pover Samaritan come along, an' taking pity on de wounded man, helped him on his mule an' took him to a tavern, where he ordered food an' raiment fo' de man, an' tells de tavern keeper to send de bill to him. Now, bredders an' sistahs, dis am a true story," concluded the preacher. "fo' de tavern an' standin' to dis day, an' in de doorway is standin' de skeleton ob de tavern keeper, waitin' fo' de good Samaritan to come back an' pay de bill."

THE BIG EXECUTIVE

The Big Executive are men
Who go to work
At half past ten;
They live on chairs
And wear plus fours;
They cut down costs
And getting scores.

Minister (treating small boy to a soda): "Now, what do you say, my little man?"
Small Boy: "A-a-h-h!"
Minister: "Is that the proper way to thank a person for a gift?"
Small Boy: "That's what dad says when Uncle Jim gives him a drink."

RISK!

TO-DAY the lure of easy profits is drawing many into the whirlpool of risky speculation—to-morrow the vision of wealth may be rudely shattered.

A few years hence, which will be yours—a comfortable balance in the Bank or vain regrets for hasty action?

Millions In Waste

Food Waste Shows Everything From
Thousands To Billions, Paper

Some most unusual items find their way into the revenue-producing scrap heaps at the plants of the Ford Motor Company.

Among these items are a carload of blotting paper each week, sale of scrap iron and a huge amount of coke. Sale of scrap of all kinds last year netted the company \$2,673,877.60. This figure represents only scrap that was sold, vast quantities in addition were salvaged and converted into use by the company.

Next to the sale of coke, the largest single item in revenue-producing by-products is scrap metal. Twenty-eight freight cars on an average full of the plants each day loaded with metal shavings and trimmings—about 80 tons. More than half of this represents trimmings from machine shops and is sold to outside mills for conversion into new metal.

The rest of the metal scrap is of the type worked entirely in open-hearth furnaces and a considerable volume of such waste never leaves the Ford plant, being converted there for further use.

The blotting paper is salvaged after use as is the waste from the plates of glass. It loses none of its value as blotting paper and is re-used.

Silver is recovered from salts used in the photographic department. Diamonds are salvaged from hard cutting tools, and not the least are the left-overs from the wood upholstery. This latter waste is sold to an optical firm to be made into pushers for eyeglasses.

Established Penny Post

St. Rowland Hill Recommended Less Rate In 1837

A little over fifty years ago St. Rowland Hill was presented with the freedom of the City of London as a token of appreciation for his great service he rendered in the establishment of a penny post. It was in 1837 that Hill published his famous pamphlet recommending that within the United Kingdom the rate for letters not exceeding half an ounce in weight should be one penny. The use of postage-stamps was mentioned almost diffidently, for Hill wrote: "Verily the difficulties might be alleviated by using a bill of paper not so large enough to bear the stamp and covered at the back with a glutinous wax which, by applying moisture, might be attached to the back of the letter." The act enjoining the penny post received the Royal Assent in 1839.

Marquis Likes Harvesting

Heir Of Duke Of Montrose Spends Summers On Canadian Farm

A scion of a titled house with a liking for work in the open air, the Marquis of Montrose, heir of the Duke of Montrose, while other young men are sun-bathing at Deauville and on the Lido, he comes to Canada to act as a harvester. This is the second year in succession in which for several weeks Lord Graham has elected to put in work on a Canadian farm. He is a nice-looking, fresh-faced man of 22 and good at most games.

Pat (to tourist): "We have given athletes in Ireland."

Tourist: "Why, our champion ran six miles and then jumped a nine-bar gate."

Pat: "Oh, that's nothing when you think of the run he had at it."

"Dae ye ken that your hens come over into my garden?"

"I thought they must be daft," that."

"What make ye think that?"

"Because they never come back."

The average weight of a head of hair is from five to twelve ounces.

Write: "Please come and help. I can't get the trunk closed alone." Louise Roche, Leno, N.Y.

Marking Pigs For Identification

The Use Of Metal Tags Is The Most Common Practice

Where hogs are bred in large herds it is necessary to follow some sort of marking for identification. One method which is followed by some is that of nicking the ears. In each litter being marked on a similar part of their ears. By means of various combinations of marks quite a large number of different litters are marked, and subsequently identified. This method is faulty in that the ears may be torn and the marks destroyed. It has no other weakness in that it does not serve to identify the individual pigs within the litter. The use of metal tags is a general practice on some hog farms. These are stamped with combinations of letters or figures, and as each tag has a different combination a ready means of identification is assured. The most satisfactory type is that which is self-cleaning and when inserted in the ear remains there permanently un- torn. When this happens, which is but rarely, a duplicate may be inserted. In order to avoid confusion the tag should be inserted in the ear of both parents. The Dominion Animal Husbandman, who has a wide experience in marking hogs for identification, calls attention in his report for 1926, published by the Department of Agriculture, at Ottawa, to the use of the latter in marking.

Recognized by the National Pig Breeders' Association of Great Britain. This method of marking is an interesting test at the Dominion Farms with the object of determining its value as a means of identifying swine.

Silver is recovered from salts used in the photographic department. Diamonds are salvaged from hard cutting tools, and not the least are the left-overs from the wood upholstery. This latter waste is sold to an optical firm to be made into pushers for eyeglasses.

Suggested Economic Policy

Other Dominions Asked Same Thing

Age To Meet At Ottawa

Premier Mackenzie King has feared that Canada some time ago suggested to the other Governments of the British Empire an economic conference he held at Ottawa this year. It was not found possible, however, to arrange such a conference so soon.

In making these statements the Prime Minister pointed out that Canada would propose an economic conference in the Dominion. "It is exactly what we would wish," said Mr. King. On the other hand, it was the desire of the Dominion to have the convenience of all parts of the Empire, and if the general feeling was that there was no possibility of an economic conference either here or elsewhere next year.

What with airplanes attaining a speed of 220 miles an hour and automobiles whizzing along at sixty and seventy, motorists skimming the waves like a fish of light, how long it is going to be before a nice quiet stroll is going to be a luxury?

Work Horses Shipped East

Saskatchewan Horses Are Shipped To Lindsay, Ontario

Under the supervision of the Saskatchewan Live Stock Pool, and the Provincial Government, an inaugural shipment of carefully selected work horses was shipped from Regina to the other day to the order received by W. Waldron, Markets Commissioner, from the F. J. Carey & Co. Company, Lindsay, Ontario. These horses are required for bush work and are young, upstanding, heavy weighted bays, and were inspected by Dr. M. P. McClellan, Veterinary Officer of the Provincial Department of Agriculture. A cooperative horse marketing organization for Saskatchewan has been a long felt want and the need has now been supplied by the formation of a horse marketing division of the Saskatchewan Live Stock Pool, supported by the Provincial and Dominion Departments of Agriculture.

All The Same To Him

His wife had gone to visit her mother, and had telegraphed that she would not be returning until the morning.

"When she got home, she said to her husband: 'You managed to find something to eat last night, didn't you, dear?'"

"Oh, yes," he replied cheerily. "I had the steak that was in the pantry and fried it with some onions that I found in the cellar."

"Onions?" she gasped. "Darling, you've eaten my flower bulbs."

The haberdasher—Yes, sir, those socks will give perfect satisfaction. I've worn them myself for the last two months."

The customer—Have you a pair like them that you haven't worn so long?

"Have, did you hear the step-ladder fall?"

"Yes, mummy."

"I hope that hasn't fallen."

"Not yet—he is still hanging by his waistcoat to the picture hook."

W. N. U. 1900

Keeps Lonely Vigil

Secretary Of Ancient Cutlery's Company Only Member At Yearly Meeting

Every year on August 24th (Monday) the first Monday in August) the secretary of the Ancient Cutlery's Company, in Hollandville, keeps a lonely vigil at Cutlery's Hall, where he arranges a meeting for members of the company who he knows will never come, and never have come on this particular date.

An old Act of Parliament, passed as part of a charter of the Cutlery's Company, says that a meeting of the company shall be held on the first Monday in August every year, between the hour of 1 p.m. and 3 p.m., to elect 24 assistants to the company.

In these days no meeting is held, but to comply with the statutory requirements, provision has to be made for a gathering at Cutlery's Hall. The presence of at least 40 members would be necessary if a meeting took place, for this number is needed to form a quorum. If the act of Parliament were to be altered to suit the necessity of the secretary attending, it would cost about \$4000 in legal fees and other charges, and so from one o'clock to three o'clock, the secretary sits and waits—the errand members who are probably enjoying their holidays.

Menace To Garden Corn

Worm Destroys Kernels, When Cob Near Cooking Stage

Since the European corn-borer has been doing damage to corn fields in Canada it has often been confused with another worm, particularly in garden corn, says a Federal Department of Agriculture bulletin.

The corn-eat worm, unlike the corn-borer, works in the ear, eating out the kernels of the cob when at the cooking stage. The caterpillar of the corn-eat worm when mature is from 1½ to 1½ inches in length. It varies in color from light green to dark brown with rather indistinct stripes on the back and a wider and inconspicuous pale colored band along the side. Its description is given in Bulletin No. 112 of the Department of Agriculture at Ottawa, by Arthur Gibson, the Dominion Entomologist, and C. R. Town, an officer of the Entomological Branch. It attacks the ears of garden corn, feeding on the kernels, particularly those near the base. The caterpillar is quite abundant, and according to these authorities, at such times it also may be found boring in the fruit of the tomato.

A Luxury Already

What with airplanes attaining a speed of 220 miles an hour and automobiles whizzing along at sixty and seventy, motorists skimming the waves like a fish of light, how long it is going to be before a nice quiet stroll is going to be a luxury?

There is no room for trouble in an attic.

Where the Clans Gathered

Lay-out of the grounds of the Royal Sports, where the Royal Highland Gathering and Scottish Festival and the Dominion Track and Field Championships were staged recently. Centre photograph shows the grounds and (1) Piper Macdonald, Montreal, winner of first prize for strathpines and second prize for marches and (2) the highest aggregate points over all in the open piping events; (3) Pipe-Sergeant J. K. Cairns, of Hamilton, winner of the trophy donated by E. W. Beatty, chairman and president of the Canadian Pacific Railway, open to any piper of any pipe band officially connected with any unit of the Canadian militia; (4) Pipe-Sergeant Donald Macdonald, of the Queen's Own Cameron Highlanders, Winnipeg, winner of the special trophy donated by E. W. Beatty; for the best piper among the delegate pipers from the various Highland regiments of Canada; (5) Lieutenant-Governor William Egbert, of Alberta, and Lieutenant-Governor of British Columbia, at the Festival.

English Gardeners' Value Toads

English gardeners are always in the market for live toads, and not infrequently as much as \$25 per hundred is paid for this insect destroyer. It is estimated that every time a boy kills a toad, he is destroying \$100 worth of stock on a farm.

"Harry, I don't believe that you put the cat out."

"Well, if you think I'd tell it he about a little thing like this, put her out yourself."

Amalgamated Civil Servants

Commercial Production For Use On Stamps To Be Undertaken

A new item looms on the horizon of the country, the privileges of licking stamps that suit the individual taste.

Scientists in the bureau of chemistry and soils have discovered that a high quality starch is obtainable from sweet potatoes. From the starch they have produced a very pleasant taste. They are testing its suitability as glue for stationery and stamps.

All that is left to do is to develop a method of economical commercial production. It is to be undertaken this fall, when the sweet potato crop is harvested. Unusually, it is believed starch can be made from sweet potatoes as cheaply as from tapioca, the present source of most stamp and stationery glue.

If it can, and manufacturers are able to pay enough for sweet potatoes to make it worth the producer's time to market, the solution has been found for the tremendous waste that has forced many farmers to quit raising them.

It is estimated that about 20 per cent. of the country's sweet potatoes are lost. It is estimated that 80,000,000 bushels of this crop are lost each year, heretofore suitable only as feed for cattle and hogs.

Statistics of sweet potatoes, says Dr. W. W. Skinner, assistant chief of the bureau's chemical and technological research, make it possible to estimate that last year he estimates a market for 870,000,000 pounds, or 17,400,000 bushels of sweet potato culls.

Played Joke On Cambridge

Some Yorks Ago Students Faked Visit Of Sultan Of Zanzibar

The visit of the Sultan of Zanzibar to Cambridge recently recalled what was probably the greatest hoax perpetrated on any great university. Some years ago it was announced that His Highness would visit Cambridge, and the mayor and corporation turned out in full splendour to pay homage to their distinguished visitor. In due course the Royal party arrived, and were received as the Guddah. It was not until after full honors had been accorded that the students learned that they had been entertaining a party of their own students. The undergraduates groined in vapour when the Sultan party arrived.

Lightening the Load

If Canada continues as in the past fiscal year, to devote \$186,332,025 to interest and debt redemption, this country will be free from debt in twenty-five years. Every year the debt weight of interest lightens, having decreased \$22,000,000 since 1921. It is estimated that every time a boy kills a toad, he is destroying \$100 worth of stock on a farm.

"Harry, I don't believe that you put the cat out."

"Well, if you think I'd tell it he about a little thing like this, put her out yourself."

Feet Deformed By Binding

Chinese Women With Bound Feet Are Becoming Ashamed Of Them

For the first time in China's long history, Chinese women with bound feet are becoming ashamed of them. They feel, always regarded as indispensable to beauty, are becoming a disgrace.

A foreigner who has recently travelled in Honan province, reports that a number of Chinese women whose feet are deformed by binding are using them to cover them up. The usual tiny shoe is used and over this a considerably larger one is placed, to give the impression that the feet are not bound.

But their walk always gives them away, the traveller states, because bound feet prevent women from walking naturally.

Profit In Poultry

Six Hundred Dollars Net Cash From 300 Hens In Seven Months

Six hundred dollars net cash from 300 hens in the seven months from January 1st to August 1st, is the record of May Brothers, of Woodford, nine miles east of Gardenton, says the Winnipeg Free Press Evening Bulletin. Besides the eggs used on the farm there were enough sold to bring in \$4000 net. Eight of the hens were shown at the Calgary Fair when six prizes were taken, including a first prize. The hens are single comb white Leghorns.

British Boys For Canadian Farms

The Canadian Pacific's Department of Colonization and Development has brought out 1,192 British boys for agricultural placement this year, according to Colonel J. S. Denison, chief commissioner of the department. The department has been the leading agency in the Dominion in the placing of British boys on Canadian farms.

The sound of a bell which can be heard 45,000 feet through the water has been heard through the air 450 feet.

Should Investigate First

Maying Stock Is Matter For Very Careful Consideration

Industrial prosperity creates additional opportunities for lucrative investments and the shrewd investor will carefully reap the benefits. The inexperienced or small investor must ever be on his guard.

There are three very important factors that should constantly be borne in mind. First, a purchaser should buy a substantial stock. This should be established by a careful inquiry into the past record of the company, its management and potential earnings. Second, he should be sure that upon completion of payments the stock will be delivered to him. Third, he should investigate the stock charged to him for purchasing before he is asked to make sure that it is a reasonable rate.

The purchase of a substantial security has everything to be recommended. It reduces the speculative element of an investment and provides substantial collateral that may be used in negotiating loans from banking institutions. An increasing public knowledge of this fact will tend to make the investor public prove to be the fraudulent promoters' undoing.

Saved the Situation

Price Of Wales Came To Aid Of Embarrassed Mayor

The help apparent to the British mayor of Cardiff at all times ready to laugh—wags, moreover, to laugh at himself. The fact that he has this gift of laughing at himself crops out in many of his after anecdotes.

Once, at a function exactly like dozens of others which he had attended, he was introduced to the mayor of some English town, who was impressed with the "enormous historical importance of the occasion" that he had been down to Cardiff just through his pompous speech of welcome to the Prince.

"Only one do we welcome," said the Mayor, "and that is the representative of His Majesty," announced the Mayor, "but we—well—we—"

There he stuck. He fumbled furiously for the next page of his carefully prepared speech, which in his agitation he had mislaid.

"That we—well—we—"

"No use. Those present, shuffed their feet nervously. But the Prince of Wales, a survivor of countless similar dull speeches, cheerfully interjected, "But we welcome you for yourself."

Signaling with relief, the Mayor repeated the words. The Prince smiled radiantly. The audience howled with delight. The situation was saved.

Should Investigate First

Maying Stock Is Matter For Very Careful Consideration

Industrial prosperity creates additional opportunities for lucrative investments and the shrewd investor will carefully reap the benefits. The inexperienced or small investor must ever be on his guard.

There are three very important factors that should constantly be borne in mind. First, a purchaser should buy a substantial stock. Finishing Poultry

For Market

Finishing Poultry Touches On Post

The time would seem to be past when poorly finished poultry can be marketed with profit. Indeed it is being so marketed that poultry raisers are being forced to produce better poultry before effecting it. For this, the greatest proportional return of any other method for making the young fowls, and are much more desirable to the consumer.

The past methods of finishing poultry for market are described by Mr. P. C. Clifford, Dominion Husbandman, in Bulletin No. 20, of the Department of Agriculture, at Ottawa. Crates feeding especially for coxalasia, is highly recommended, but it is also claimed by Mr. Clifford that it is better to accept a market for poultry and have when they are to be sold in dressed condition. Crates feeding is done both in small crates for sale for small lots, and in feeding batteries for those who buy in chickens to finish in a large way.

After the birds have become accustomed to confined quarters by being fed in a bath of chicken feed, it is recommended to allow them to mix a meal and then to feed sparingly for several days. This plan is necessary to avoid indigestion with birds that have been confined in small quarters after having been accustomed to free range. Twenty-four hours of fasting are recommended at this stage.

Should Investigate First

Maying Stock Is Matter For Very Careful Consideration

Industrial prosperity creates additional opportunities for lucrative investments and the shrewd investor will carefully reap the benefits. The inexperienced or small investor must ever be on his guard.

There are three very important factors that should constantly be borne in mind. First, a purchaser should buy a substantial stock. This should be established by a careful inquiry into the past record of the company, its management and potential earnings. Second, he should be sure that upon completion of payments the stock will be delivered to him. Third, he should investigate the stock charged to him for purchasing before he is asked to make sure that it is a reasonable rate.

The purchase of a substantial security has everything to be recommended. It reduces the speculative element of an investment and provides substantial collateral that may be used in negotiating loans from banking institutions. An increasing public knowledge of this fact will tend to make the investor public prove to be the fraudulent promoters' undoing.

English Gardeners

Local News

Harvey Smith returned from Weyburn, Saskatchewan, last Thursday.

W. E. Weir was in from Makepeace last Saturday.

Lloyd Houch has purchased the H. Butterworth house.

Mrs. W. J. Park, of Bassano, was the guest of Mrs. Wm. Noble, on Tuesday last.

Geo Travis was taken to the hospital Monday night. His condition may necessitate another operation.

Mr. and Mrs. T. H. Hunter intend moving to Medicine Hat, where they own a house.

Mrs. L. V. Birnie, wife of the new hotel proprietor, arrived in town on Wednesday.

The W. I. will hold their next meeting Tuesday afternoon next week, October 15.

Spread of Knowledge
She: "Jack, dear, am I the first girl you ever kissed?"
He: "Yes, indeed. I learned to do that from a radio lecture I heard the other night."

Knows His Chuck
A lady was entertaining the small son of her friend.
"Are you quite sure you can cut your meat, Willie?" she asked, after watching him a moment.
"Oh, yesum," he replied without looking up. "We often have it as tough as this at home."

Perfect Hostess
A deaf old lady went to live near one of the naval ports. Shortly afterward a battleship fired a salute to ten guns. The old lady, who lived alone, got out of her chair, smoothed down her dress, patted her hair, and said sweetly, "Come in."

WHAT EVERY OVER-LOOKED MOTHER NEEDS
A remarkable book just off the press, by Georgina Sackville, contains special information for married people. \$2.50, cash, with order. "Home Publications," 220 P. Burns Building, Calgary. advt.

Notice To Threshermen
Owners or operators of threshing machines and combined harvesters are required to have their machines registered with the Department of Agriculture and to send to the Department at the end of the threshing season a return showing the number of acres and number of bushels threshed. This applies whether the machine is to be used for custom work or only for the owner's crop. Special forms for these returns may be secured from the

PUBLICITY BRANCH
Dept. of Agriculture, Edmonton.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF DAVID GEORGE WALSH, commonly known as GEORGE WALSH, late of the Town of Bassano in the Province of Alberta, Farmer and Rancher, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the estate of the said DAVID, GEORGE WALSH, who died at the 15th day of December, 1924, are required to file with THE TRUSTS & GUARANTEE COMPANY, LIMITED, 220 High Avenue West, Calgary, Alberta, on behalf of the Executors of his will by the 30th day of November, A.D. 1925, a full statement duly verified, of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the Decedent among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

DATED this 10th day of October, A.D. 1925.
ROBERT MCLEAN, K.C., Solicitor for the Executors, Bassano, Alberta. 15-16-c

DATED at Bassano, Alberta, this 1st day of October, A.D. 1925.
MAUDE P. BIRNIE, Applicant. 15-16-c

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN

"HOW OLD IS ANNY?"

We do not profess to give an answer as to the number of years which Anny has lived, or the number of birthdays she has celebrated, because we are quite willing to leave the solution of that problem to the mathematicians, or to those who enjoy puzzling with such questions. The reason why we refer to Anny's age is because this gives us the opportunity to point out to our readers that there are more ways of determining age than by counting years. By this we mean that the real age of a person is not represented by the number of years passed since his birthday, but rather by the condition of his body at the present time.

The body is frequently likened to a machine or an engine. The body differs from any other machine in that when one part is worn out the machine as a whole is not affected. The true age of the body is shown by the condition of the various essential parts. If they show signs of wear, then the body is growing old, regardless of

the number of birthdays passed. Old age is merely the wearing out of the body machine, and health work seeks to prevent a premature old age by protecting the body from needless strain, and by warning against over-indulgence which are responsible for many of the breaks during the years when fitness should be maintained.

If we were asked to determine Anny's age on this basis, we would want to know the condition of her heart, her arteries, her kidneys, her lungs, and of those, particularly, would be interested in heart, arteries and kidneys, because it is in these organs that the first signs of wear are usually seen. We would then want to know how Anny lives. What does she eat? Does she get sufficient rest and recreation? In other words, does she live a hygienic life? Knowing the actual condition of her body and her manner of living we would know much more about her true age than does the mathematician who solves the problem.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

I Didn't Know That

But her friend knew. For she had read all about it in the newspaper advertisement. And when the new goods arrived she was among the first to view them, and she made her choice from the complete selection.

This woman knows how to shop. By reading the newspaper advertisements she keeps well informed on the trend of style and what is new, chic, and up-to-date. And she gets full value for every dollar that she spends.

Patronize your local bakery; don't just ask for bread, say Bassano Bread; it is better.

WARNING To Motor Car Drivers

CARRY Your Licences

THE VEHICLES AND HIGHWAY TRAFFIC ACT, 1924, AMENDMENT ACT 1925, REQUIRES THAT EVERY PERSON OPERATING A MOTOR VEHICLE SHALL SECURE AN OPERATOR'S OR CHAUFFEUR'S LICENSE AND SHALL AT ALL TIMES WHILE DRIVING CARRY SAME. A PENALTY IS PROVIDED FOR FAILURE TO PRODUCE SUCH LICENSES WHEN DEMAND BY AN OFFICER.

IT IS NECESSARY, OWING TO THE NUMBER OF MOTORISTS WHO PERSIST IN DRIVING WITHOUT LICENSES, THAT THE POLICE BE INSTRUCTED TO REQUIRE THE PRODUCTION OF THESE LICENSES FROM TIME TO TIME.

THIS LAW HAS BEEN PASSED IN THE INTERESTS OF SAFE DRIVING, AND THE PRODUCTION OF A LICENSE IS THE ONLY PROOF OF OWNERSHIP OF ONE.

CARRY YOUR LICENSE AT ALL TIMES AND AVOID INCONVENIENCE AND PROSECUTION.

APPLICATION CARDS MAY BE OBTAINED FROM ANY ALBERTA POLICE OFFICER, CLERK OF THE COURT, DEALERS IN MOTOR VEHICLES, OR FROM THE POSTMASTER IN ANY TOWN OR VILLAGE, AND WHEN COMPLETED SHOULD BE FORWARDED TO THE MOTOR VEHICLE BRANCH OFFICE AT EITHER CALGARY, LETHBRIDGE, OR MEDICINE HAT, OR TO THE OFFICE OF THE DEPUTY PROVINCIAL SECRETARY AT EDMONTON.

Hon. J. E. Brownlee
PROVINCIAL SECRETARY

E. Trowbridge
DEPUTY PROVINCIAL SECRETARY.

Look for this label

When you are buying Gin, see that this label is on the bottle. It is a guarantee that the contents are real London Gin, distilled in London, England, from the very finest materials. Avoid disappointment by always asking for

GILBEY'S LONDON DRY GIN

Distilled, bottled and guaranteed by W. & A. GILBEY "The Gin with a world-wide reputation for absolute purity."

WORLD HAPPENINGS BRIEFLY TOLD

Farmers in Alberta who suffered damage by their crops by August hailstorms have been paid a total of \$575,000 by the Alberta Hail Insurance Board.

The Dorrler airplane works announce that the new huge 12 motor Dorrler D-OX seaplane recently constructed by the company would attempt a flight to America in mid-January, 1930.

A commission of inquiry into the causes of the recent outbreaks in Palestine was appointed at London, England, by Lord Passmore, British Colonial Secretary. It has been officially announced.

A report on a special shipment of wheat to Great Britain will likely not be made public until near the end of the year. It was stated at the Department of Agriculture recently. It will require that length of time to gather all the data.

A report has been issued from Professor Elsevier's surgical unit at the University of Toronto, stating that the differences between Great Britain and the United States over purity and disarmament as affecting cruelties, have narrowed to a mere question of three cruelties carrying 8-10 gunns, and also a tonnage of 15,000.

The Irish Free State will be a candidate for a seat on the Council of the League of Nations at the next session. It was stated in ministerial circles. When Canada's three-year term expires the Free State is considered to have a good prospect of getting a seat.

Chinese Massacre Moslems

Three Thousand Slain Because They Rebelled Against Islamists.

Reports from Central China province stated that Chinese had executed an appalling massacre of Moslems there, the victims numbering at least 3,000. Details were lacking, but it seems the Moslems rebelled against Chinese authorities, whereupon they were slain.

According to reports, the executions were carried out under guise of a conference with the Moslems. The victims were separated from their wives and then put to death. According to the reports the Moslems died stoically.

It is indicated that the Chinese now fear Moslem retaliations, possibly causing renewed civil war, which in 1918 caused the death of many thousands of Chinese and Moslems in Kansu.

Not Dependable.

According to Dr. Morris Fishbein, "a man's best friends are his hair and teeth." And, and to relate, even they are sometimes false.

A new map of Ireland with names in Gaelic instead of English has been issued by the Government of the Free State as part of an effort to restore general usage of ancient Irish speech.

"Are you really a doctor of philosophy now?"
"Yes."
"Well, tell me how to keep my temper when the cleaner runs my best foot."

London is now regarded as the centre of the stamp collecting world.

King Alfonso, Of Spain, Likes Working Around Machinery

King Alfonso of Spain, in an interview with the London Sunday Express, confessed that it had not been known a King who probably would be working in a motor car factory today.

"It is good to be a King," Alfonso said, "I would like to follow the example of Peter the Great, of Russia. Peter travelled throughout Russia, in disguise, not shirking from jobs in Dutch and English shipyards and factories, just to become acquainted with the latest developments."

"It is a good thing for a King," Alfonso said, "to be in a beautiful place, surrounded by soldiers and sailors, and to be able to change his mind and to be able to change his mind."

"The King is a worker just like the people. I am a worker. I was born a monarch not because I chose to have to do my job just as any other man. There are plenty of people to occupy themselves with economy and foreign affairs. I am inclined to leave them a free hand. And although my job brings me in contact with matters of state, my inclinations are toward industry and the development of Spain."

"I have found that to be so in Canada, and we have not the slightest doubt that if a small-spox epidemic were to make its ghastly presence felt tomorrow, there would be the usual bands of people, and a bus and cry against vaccination."

"Vaccination is recognized by all public health administrators as being the only sure means by which this disease can be combated. And it is equally true that vaccination properly performed is absolutely devoid of danger to life or health."

"Let us look back into the pages of history and find out what was going on before vaccination was introduced. We find that not only did small-pox exist, but it was a deadly disease, and it was a deadly disease."

"Vaccination is recognized by all public health administrators as being the only sure means by which this disease can be combated. And it is equally true that vaccination properly performed is absolutely devoid of danger to life or health."

The History Of Vaccination

Vaccination Recognized As The Only Effective Means By Which Small-Pox Can Be Combated

Dr. William C. Clegg, the famous medical man, once remarked that "there is always a group of individuals who are very susceptible to this peculiar form of small-pox, and who are incapable of any judgment, and who seek in every way to oppose the use of vaccination, not only for themselves but also for others."

"We have found that to be so in Canada, and we have not the slightest doubt that if a small-spox epidemic were to make its ghastly presence felt tomorrow, there would be the usual bands of people, and a bus and cry against vaccination."

"Vaccination is recognized by all public health administrators as being the only sure means by which this disease can be combated. And it is equally true that vaccination properly performed is absolutely devoid of danger to life or health."

"Let us look back into the pages of history and find out what was going on before vaccination was introduced. We find that not only did small-pox exist, but it was a deadly disease, and it was a deadly disease."

"Vaccination is recognized by all public health administrators as being the only sure means by which this disease can be combated. And it is equally true that vaccination properly performed is absolutely devoid of danger to life or health."

"Let us look back into the pages of history and find out what was going on before vaccination was introduced. We find that not only did small-pox exist, but it was a deadly disease, and it was a deadly disease."

"Vaccination is recognized by all public health administrators as being the only sure means by which this disease can be combated. And it is equally true that vaccination properly performed is absolutely devoid of danger to life or health."

The Singing Fool

By HUBERT DAIL
Copyright, 1932, Warner Bros. Pictures, Inc.

SYNOPSIS
Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winston, a ballet singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al loves. Molly becomes interested in John Perry, Al's close friend, and Perry begs her to leave Al. One night, after Al has taken Molly home from the Club Bombo, where he is part owner, she turns on him in rage, saying she doesn't love him. Al believes it is a poor, but when Molly talks to a peer at the Club Bombo New Year's Eve celebration he realizes Molly's false answers, but he cannot hear the words, as the "phone booth" dies open.

CHAPTER XVI
Once more Al set the door of the "phone booth" and slammed it hard—to stay shut this time. Then he turned back to the "phone. He suddenly decided that he must make things up with Molly now—he would cast all pride aside and frankly beg her to do it.

"Sweetheart," he pleaded, "let's start the new year right. If there's anything I've done, I'm sorry. Let's make up."

"There was a long silence, then the faint murmur of a feminine voice, whose words he didn't understand. A start of fear shot through him, but he persisted.

"I love you, Molly; you know how I love you. I can't bear to have you cold toward me."

Now the voice at the other end was stronger; he suddenly realized it was not Molly's voice at all, but the maid's. He heard her quick, distraught words come travelling over the wire like bullets.

"Mrs. Stone is not here. She has gone away."

"Gone away?" Al exclaimed. What do you mean?"

"Yes, sir; Mrs. Stone has packed up her things and gone. She left a letter for you."

Packed her things? Left a letter? Al felt the receiver slipping from his numbed fingers. Why, it couldn't be true; it mustn't be true! Through the glass window of the "phone booth" he saw the gay dancer, the muffled sounds of their rejoicing reached him in a tantalizing murmur.

"I love you, Molly; you know how I love you. I can't bear to have you cold toward me."

Now the voice at the other end was stronger; he suddenly realized it was not Molly's voice at all, but the maid's. He heard her quick, distraught words come travelling over the wire like bullets.

West India

New Market for Canada

Business Could Be Developed With West India

That there is a growing field for Canadian manufacturers and merchants in the West Indies is evidenced by the fact that a representative of a Canadian house, recently visited Jamaica and carried away with him several new orders.

With a single exception this representative named Jamaica, declared F. W. Fraser, Canadian Trade Commissioner at Jamaica, B.W.I., whose territory includes the Bahamas, Haiti and British Honduras. Mr. Fraser arrived in Canada from Jamaica on the "Lucky Drake," of the Canadian National Steamship, which developed at Saint John.

One of the outstanding developments of the year? Mr. Fraser stated, "has been the rounding out of the Jamaica Producers' Association program. This association was formed last year to market bananas co-operatively, and is supported by the producers in ever-increasing numbers. An offshoot of this movement is the Citrus Fruit Growers' Association, now being formed in the island, and which it is believed will lead to further development in the growing of citrus fruits. The shipments of bananas for 1929 have reached a total of 3,000,000 stems in excess of the same period for 1928. The quality has been excellent and the price satisfactory."

For a moment this sense of bitter rage and contempt dominated all other thoughts and emotions in him. The sense of being cheated, not only once, but consistently for days, weeks, months, years, made him hate her. And that someone was his brain—Molly—made him hate her. She had lived a lie from the moment she said she would marry him.

For a moment this sense of bitter rage and contempt dominated all other thoughts and emotions in him. The sense of being cheated, not only once, but consistently for days, weeks, months, years, made him hate her. And that someone was his brain—Molly—made him hate her. She had lived a lie from the moment she said she would marry him.

He realized the countless times he had overlooked Molly's petulant moods, selfish caprices and savage outbursts of anger, always believing that she was loyal and fine underneath.

Now, suddenly, his thoughts turned to Junior, and he read on:

"I was going to leave the house when you woke up as I was leaving. He held out his arms to me, and after all, he is more mine than yours."

"MOLLY!"

Al ran to the nursery. The dresser drawers had been pulled out and there were evidences of hasty packing. Some of Junior's toys lay scattered about the floor, among them his favorite, a woolly dog. His mother had been thrown in the corner.

Al stood, dazed, gripping the foot of Junior's bed. Where had Molly taken his boy?

For a moment Al was possessed by the determination to find Molly and Junior tonight—then he realized that the plan was futile. In this city of seven million persons and countless skyscraper hotels Molly and Junior could have been hidden away, hiding away without difficulty.

After that note Al did not doubt that Molly was with Molly. Perhaps even now they were speeding toward Boston in Molly's Rolls-Royce, or they might have caught the night limited for Florida several hours ago. He went quickly to the phone and called up the garage.

Sulphate Plant

Large Plant To Be Erected About 50 Miles South Of Moose Jaw

Within the next sixty days, construction work is to be started on a large sulphate plant some thirty miles south of Moose Jaw. The plant will draw the sodium sulphate deposits from Horsehoe Lake, a short distance south of Orkney, Ont. By June of next year, it is expected to be in operation. The Harbison Reduction Corporation of Chardon, West Virginia, is the company behind the undertaking.

Some goods weigh as much as 30 pounds.

When Babies

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

the thing to give. It is almost certain to clear up any minor ailment, and could by no means hurt the youngest child the slightest harm. So it's the first thing to think of when a child has a coated tongue, won't play, can't sleep, is fretful or out of humor. Get the genuine; it always has Chas. H. Fletcher's signature on the package.

Little Helps For This Week

"For, in the winter is past, the rain is over and gone; the flowers appear on the earth, the time of the singing of birds is come."—Song of Solomon II, 11, 12.

The year's at the spring. And days are at the morn: Morning's at seven; The sun's up and the day's begun; The lark's on the wing; The snail's on the thorn; God's in His heaven; All's right with the world.

Robert Browning.

That is not an enviable nature that hears no strange melodies in the air, and flowers; and that feels no benediction in the bright air and palpitating sky. He may be just to his neighbor, industrious and virtuous, but he does not understand the meaning of Jesus in the fields of Galilee, pointing to the birds and the lilies, and telling of our Father's care.—Horatio N. Powers.

The best light enters a room through the upper third of the window, the U.S. Public Health Service reminds us.

Fertilizer Brings Returns

Increase in Yield Of 11 Bushels To The Acre Is Reported

A place of land on the Pokrant farm in Morden, close by the Canadian Pacific Railway station, was seeded this year with fertilizer by the experimental farm of the district. It yielded 41 bushels of wheat to the acre, as compared with a yield of 30 bushels in an adjoining lot, unfertilized. It is said that the fertilizer retains its value for the soil for three years.

Good for Cattle

Keep Minard's in your barn with the "KIND OF PAIN" LINIMENT. An excellent first aid for your stock.

MINARD'S

"KIND OF PAIN" LINIMENT

Actual Thickness

Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned out into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is a perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its seams meet like a flat, smooth surface. Practically any decoration takes any decoration.

Braced, ceiling high sections of Gyproc can be used directly in place and need no special treatment with plaster of Paris.

Local News

Mrs. J. M. Wietzel, of Standard, was recently the guest of Mrs. Ben S. Finner.

Mr. and Mrs. H. W. Ford and Mrs. Jan. Johnston motored to Calgary last Sunday. Mrs. Ford and Mrs. Johnston returned on Wednesday.

Mr. and Mrs. J. King were visitors to Calgary early in the week.

Mr. and Mrs. T. M. Simpson went to Calgary on Tuesday.

COURT HOUSE NEWS

Judge MacDonald, of Calgary, will hold chambers in the Basano Court House on Thursday, October 17th. Three and a number of applications for naturalization to be heard, the applicants being: Joseph Cerny, Junior, of Guelph; Robt. Z. Lore, of Latham; Frank C. Tucker, of Byrnes; David Carl Porfacy, of Guelph.

MRS. LEO FRASER PASSES AWAY

Mrs. Leo Fraser, a former Basano young woman, and the daughter of Mr. and Mrs. F. O'Connor, died in Basano on Saturday last, October 5th, at the age of 23 years. Mrs. Fraser had been living in Detroit, Michigan, and this summer returned to Alberta. She was born in North Dakota, and at an early age came to Basano with her parents, and attended school here.

The funeral was held Sunday afternoon, Oct. 6th, and the body was deposited in the Basano Cemetery.

R. C. CHURCH MEMBERS WHIST DRIVE AND DANCE

Members of St. Columba's R. C. Church will hold a whist drive and dance on Friday evening, Oct. 11, in the Masonic Community Hall.

CHANCELLOR NEWS

(Continued from front page) games, was very much enjoyed. The prizes went to Mrs. Francis 1st, and Mrs. Dignan 2nd. The ladies served a delicious tea which everyone enjoyed. After tea, on behalf of the Standard and Chancellor ladies, the presidents of the visiting societies thanked the Hussar ladies for a most enjoyable afternoon.

On Monday evening most of the Standard residents and some from Hussar, Rosebud, Glendon, Chancellor, and Rockyford gathered to honor Mr. and Mrs. Day McGowan on the silver anniversary of their wedding. A very substantial turkey supper started the evening, and after supper Mrs. Wagner sang "Bonnie Mary of Argyll." Mr. Morris, of Standard, acted as toastmaster, and F. Mersonge as chairman. Mr. Morris called on a few old timers to speak, which they did in a very pleasing way. He then called on Mr. Mersonge, on behalf of those present, to present Mr. and Mrs. McGowan with a beautiful chest of silver as some lovely silver ornate dishes. Mr. McGowan suitably replied. A dance followed, with information of stalling, during which S. McAllister delivered the audience with "Under My Window."

Mrs. N. Hanson was loudly applauded for her rendering of "Asleep in the Deep," and for an encore sang a beautiful song in Danish. Dancing continued till the wee sma' hours. The orchestra is worthy of some praise here, too. They were all Standard folk, and they played wonderfully. They cheerfully gave all the encore, asked for.
